AMENDMENT; RESPONSE TO PTO
COMMUNICATION MAILED JUNE 17, 1994

of Patents and Trademarks

Sir:

PTO MAIL

In a communication dated June 17, 1994, the Examiner indicated that in Applicants' previous response, filed March 31, 1994, the amendment included with that response inappropriately directed the principal claim to a separate and distinct invention. Applicants' representative contacted the Examiner in charge of the application and ascertained that to address the concerns, the principal claim should be amended to clarify that it is still concerned with a composition that comprises the UTAA subunit, and the concept of the holoantigen as being the source of the subunit should be placed into a dependent claim. The present amendment is filed in order to introduce the suggested amendments.
